DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 7-11, 14-18 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by 5890468. 5890468 discloses a drive assembly for a supercharger 10 having an input adapted for driving by an internal combustion engine 1, a hydrostatic transmission 40 driven by said input and an output gear, a planetary gear assembly 13 having a carrier coupled to said input and supporting a plurality of planet gears, a ring gear 14 having internal gear teeth engaged by said planet gears and external gear teeth engaged by said output gear of said hydrostatic transmission and a sun gear 11 engaged by said planet gears, and a supercharger having an impeller coupled to said sun gear.

Allowable Subject Matter

3. Claims 5-6, 12-13 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
